

Use...

AUTOMATIC BILL PAYMENT

...and your City utility bills are always paid easily, conveniently, and on time

How do I get it started? Fill out the form on the reverse side. Return the form with a copy of your bank or credit union account voided blank check. (This is needed to confirm your bank routing and account numbers with your bank/credit union). You may return this form and the voided check with your utility bill payment. Allow one month for the process to be set up with your bank or credit union.

How much will it cost? Nothing. There is no charge for this service.

If I pay my utility bill automatically, how will I know how much it is? You will still receive your bi-monthly utility bill. The difference is that you will be advised on the bill to make no payment, that the payment will be automatically withdrawn from your account.

How will I know that my utility bill has been paid? Each payment should be shown on your bank/credit union checking/savings account statement. Each utility bill you receive will also show the previous balance paid.

Does this work the same as my automatic payments to PG&E, AT&T or my cable company? Yes, it works exactly the same way, except the date of the payment for each may differ.

What if I want to stop automatic utility bill payment? Just write us a note telling us to stop. That's it. Allow 30 days for the process with your bank/credit union to be stopped.

What are the benefits of using automatic bill payments?

- *Saves time* – no more writing checks and stuffing envelopes.
- *Saves money* – no postage costs.
- *Always on time* – no worries about late payments, especially if you are planning to be away.
- *Improves credit* – builds a history of on-time payments.
- *Provides more security* – your payments are made electronically.
