**iOS and Android Phone Apps  
are now available for  
download!**

The City of Millbrae recently launched the new request management software Millbrae Works powered by SeeClickFix. The application called Millbrae Works is available for all residents to download on any iOS or Android device.

The Millbrae Works app allows the City of Millbrae residents who identify community repair or service request needs to submit photos, location information, and request details directly to The City of Millbrae administrative staff members. In addition, the platform provides The City of Millbrae officials with a centralized system to manage issues from creation to resolution — engaging residents throughout the process.

The software also enables duplicate detection so that if a resident begins to submit a request already in the system, it will promptly notify them and enable them to follow the existing request. This reduces duplicate requests and increases the City of Millbrae's services.

Thus far, we have had a total of twenty-two requests. We appreciate all who have already used this new software management software and look forward to the continued success of the implementation. Be sure to download the application Millbrae Works on your [iOS](#) or [Android](#) device. You can also visit <https://seeclickfix.com/millbrae> to submit a request from your web browser or desktop computer.

## March 8th International Women's Day

City Council presented a proclamation for International Women's Day on March 8, 2023. International Women's Day illustrates the impact and developments women have made towards furthering opportunities in our society and offers an opportunity to continue to push for the rights of women and girls across the nation and the world. The theme for 2023 International Women's Day is embracing equity. Women have been fighting for nonpartisan representation in all forms of intersectionality, especially in everyday occurrences in their respective communities. The City of Millbrae honors the historical importance of women who have trailblazed history by renaming a street and commissioning an art after the late Harriet Tubman. The proclamation was presented to the Woman of the City of Millbrae Staff that were present at the meeting, including Human Resource Director and Assistant City Manager Isabel Carlos, City Clerk Elaine Tran, Recreation Director Hannah Moran, and Assistant Planner Jennifer Lim.
