Alexandria Life Sciences Campus Topping Out Ceremony

Truebeck Construction hosted a topping out celebration on Thursday, May 18, 2023, commemorating the placement of the final steel beam of the Alexandria Life Sciences Campus currently under construction at the corner of Millbrae Avenue and Rollins Road. The event was attended by staff from the City of Millbrae, developer Alexandria Real Estate Equities, Inc., project architects at WRNS Studio, and representatives of future

tenant Eikon Therapeutics. When completed, the 4.7-acre life sciences campus will consist of four buildings totaling approximately 570,000 square feet, containing laboratories and office space for an estimated 2,055 professionals working in the biotechnology industry. The entire project is expected to be completed by the Spring of 2025.

The last beam is raised and put in place.

Planning Manager Roscoe Mata signs the beam.

Volunteer to Build a Hunger-Free Community

Volunteers power our work. You can make an immediate difference in your community. Right now, an average of 460,000 people a month rely on Second Harvest for access to nutritious food, and we need your help. When we all come together, there is no limit to the impact we can make for people in our community who face hunger. We have several volunteer opportunities for individuals and groups of five or more people

Let's Reduce Waste Together!

With Father's Day, Graduation, and Independence Day all coming up, chances are you will soon be hosting or attending a celebration. Please plan to reduce the amount of waste created.

If you're responsible for food or beverages, avoid providing more than necessary and have a plan for distributing leftovers. Consider asking guests to bring reusable containers to fill. If plates, cups, and utensils are needed, plan to use reusables, not disposables. Utilize tablecloths and napkins that are washable or reusable. Provide well-labeled collection bins for recyclables, compostables, and garbage. Locate them side by side so one is as easy to find as another. If you need help determining what belongs in which bin, visit www.ssfscavenger.com/sort-smart and use the handy search tool!
