# MILLS ESTATE PARK

## COMMUNITY INPUT MEETINGS

**AUGUST 9**

**SEPTEMBER 4**

**11:00 AM - 1:00 PM**

**6:00 PM - 9:00 PM**

### MILLS ESTATE PARK TO BE RENOVATED

Mills Estate Park, located in the Mills Estate neighborhood, is currently the most undeveloped park in Millbrae. Despite its lack of facilities, the park has long been a popular destination for dog walkers and community members who come to enjoy its remarkable views of the Bay. Now, with just under \$300,000 committed for the park design, the City is ready to transform this hidden gem.

These community input meetings are essential to ensuring the City develops a space that reflects the vision and priorities of residents. The first community meeting will be held on Saturday, August 9, 2025, from 11:00 AM to 1:00 PM at Mills Estate Park itself and the second meeting will take place on Wednesday, September 4, 2025, from 6:00 PM to 9:00 PM at the Millbrae Recreation Center.

Both meetings are open to all Millbrae residents, with no advance registration required. The meetings will include presentations of preliminary design concepts, opportunities to provide input on desired amenities and features, and Q&A sessions with city staff and design consultants.

This project represents more than just a park renovation, it continues to show the City's commitment to improving community infrastructure that will benefit residents for generations to come.

The City is excited to work with residents to create a park that serves the needs of all community members while preserving the neighborhood feel that makes Mills Estate Park special.

# Shopping Cart Reminder

## *Keep our Community Tidy*

Shopping carts have been wandering around Millbrae lately, and we'd like your help keeping our neighborhoods looking their best.

Just a friendly reminder that shopping carts should stay on store property unless you have written permission to take them elsewhere.

You may not know, but taking a shopping cart off of store property is a violation of the law under Millbrae Municipal Code Chapter 5.65 Shopping Cart Management, Removal, Impound, Retrieval, and Disposal and may result in a fine.

All shopping carts in the city display signs with the store's contact information. If you spot an abandoned cart during your daily routine, a quick call to the number on the cart helps store owners retrieve it promptly. If the cart does not have a phone number, go ahead and report it on [SeeClickFix.com/Millbrae](https://SeeClickFix.com/Millbrae)

Our local businesses are working hard to keep their carts where they belong through various prevention measures. The city also helps by collecting stray carts and notifying store owners when we find them.

Your assistance in reporting abandoned carts makes a real difference in keeping Millbrae looking great. For any questions about shopping cart regulations, feel free to contact the Community Development Department (650)259-2341.

**Thanks for helping keep our community clean and welcoming!**

## CCFD Responds to Orleans Complex Wildfire

Central County Fire Department has deployed personnel and equipment to assist with the Orleans Complex fire burning on the Six Rivers National Forest in Humboldt County. The complex includes the Butler and Red Fires, which are currently being managed as a federal fire incident.

On July 11, 2025, CCFD dispatched a Type 6 wildland fire engine as part of a countywide strike team consisting of five engines and a team leader. The engine began active operations on July 12, with a three-person crew including one fire captain and two firefighters.

Type 6 fire engines are specifically designed for wildland firefighting in challenging terrain where larger engines cannot operate effectively. These versatile vehicles are used for progressive hose lays in remote areas, structure protection in threatened communities, and mobile attack operations. They also support ground crews with hand tools for direct perimeter control. The rugged and difficult terrain of the Orleans Complex requires crews to combine vehicle-based operations with traditional hand tool work to establish fire perimeter control.

This deployment represents a partnership between local fire agencies and the California Office of Emergency Services (CalOES) Fire and Rescue Branch. These mutual aid assignments typically last two weeks, with CCFD prepared to rotate crews if the incident requires extended operations beyond the initial deployment period.

For current incident information and updates on the Orleans Complex, visit the [InciWeb incident page](#). CCFD remains committed to supporting statewide firefighting efforts while maintaining our ability to respond to local emergencies in our community.

**Thank you CCFD Firefighters for your bravery and service.**
